

LAURA SAAVEDRA

QA Sr Tech Lead | Business Analyst | Scrum Master

[LinkedIn: Laura Saavedra](#) | +598 97 496 335 | [Laura Saavedra](#) | Montevideo, Uruguay

PROFESSIONAL SUMMARY

Senior QA Tech Lead, Business Analyst, and Scrum Master with 15+ years of experience in software quality engineering, Agile delivery, and business analysis across FinTech, Payment Gateways, EdTech, Pharma, Healthcare, Insurance, and Public sectors. Expert in driving end-to-end QA strategies, facilitating Scrum ceremonies, eliminating delivery bottlenecks, and translating complex business rules into actionable technical specifications and BDD acceptance criteria. Proven track record leading cross-functional, multicultural QA/Dev teams (LATAM & India), designing large-scale performance testing environments, and leveraging AI tools to optimize software quality and speed to market. Specialist in shift-left testing and Agile coaching to align business goals with high-quality technical execution.

CORE COMPETENCIES

- **QA & Quality Engineering Strategy:** Shift-left Testing, Business-Driven Testing, Risk-Based Validation, Test Management, Test Case Optimization, Maintenance & Generation, Regression Testing, Manual & Automated Testing Concepts.
- **Business Analysis & Scope Management:** Requirements Elicitation, Technical Specifications, Use Cases, User Stories, Acceptance Criteria (BDD/Gherkin), Process Mapping, Functional Gap Analysis.
- **Agile & Scrum Facilitation:** Agile & Scrum Facilitation: Agile/Scrum Methodologies, Sprint Ceremonies (Planning, Standups, Demos, Retrospectives), Backlog Grooming & Refinement, Impediment Removal, Team Capacity & Delivery Optimization, Jira, Xray, Confluence, Coda, Product Alignment & Stakeholder Management, Scope Management, Continuous Improvement.
- **Technical & Data Validation:** API & Web Services Testing (Postman, SoapUI), Oracle Database, SQL Queries, Strapi, Python, Back-end Operations, Test CI/CD Integration.
- **Domain Expertise:** FinTech & Payment Gateways (Base24, Clover), EdTech, Digital Media / OTT (DRM Widevine, Adaptive Bitrate), Pharma, Healthcare, Insurance, Public & Private Sectors.
- **Leadership & Mentorship:** Mentoring & Coaching, Team Leadership (LATAM & India), Cross-Functional Collaboration (DevOps, Cybersecurity, Product).

WORK EXPERIENCE

Sr Lead Level 2 QA/QC-AI Analyst & Technical Mentor — [Globant](#) Aug 2021 – Apr 2026

- **AI Pilot POD — “Care A Pet” Web App** (Jan 2026 – Apr 2026): defined technical specifications, user stories, and test cases in Coda; executed automated testing via Playwright and documented AI processes and results in Xray and GitHub, maintaining full project compliance.
- **Fiserv & IPG LATAM Payment Gateway** (2023 – 2026): spearheaded LATAM payment gateway QA across 10+ countries, integrated end-to-end; led multicultural QA teams across LATAM and India; built stress test environments mirroring production (Argentina, Uruguay, Clover) with JMeter. Testing used Postman, SoapUI, Kibana, Grafana, and Oracle DB, collaborating with DevOps and Cybersecurity teams. Analysed closely with Business Analysts to refine and clarify functional requirements, documenting technical nuances within the QA domain to complement core project documentation;
- **CeriFi, E-Learning** (2022 – 2023): managed QA strategy and API testing with Strapi/Postman; led 12 testers through production deployments.
- **CNA, Insurance** (Commercial P&C) US, client Harley-Davidson Portal **Web & Angular** (2022): owned client relationship and QA delivery, applying shift-left testing methodologies.
- **VIX OTT App, Streaming** (2021): executed playback, DRM (Widevine), adaptive bitrate, and API testing on Google TV, Fire TV, and Android using ADB and Charles Proxy.

- **Mentorship & Leadership:** certified QC Lead and Career Mentor; guided 20+ mentees at Studio QE and Friday Mentoring Pods; delivered AI learning sessions.

Sr Lead QA Analyst — [Wunderman Thompson](#)

Mar 2021 – Aug 2021

- Validated digital marketing assets, websites, and emails for pharmaceutical clients (e.g., Janssen) in compliance with strict standards.
- Performed exploratory, black box, white box, smoke, and acceptance testing using Litmus, On Acid, VEEVA CRM, and Salesforce.

Sr QA Analyst — [Banco de Previsión Social](#) — [ST Consultores](#) - Atos *Mar 2011 – Jan 2020*

- **Business Analysis & Stakeholder Management:** Partnered directly with key stakeholders and client representatives at Banco de Previsión Social (BPS) to elicit, analyze, and map complex business processes and functional rules for core government and financial software modules.
- **Use Case & Documentation Lifecycle:** Authored, maintained, and updated complete functional documentation, process flows, and use cases across both Development and Production environments to ensure ongoing alignment between business logic and technical execution.
- **Functional & Technical Specifications:** Translated business requirements into structured use cases, technical specifications, and clear acceptance criteria for Scrum teams.
- **Designed comprehensive test suites,** use cases, and process flows for Web Services and Oracle databases, managing requirements traceability in Jira and TestLink within Scrum teams.
- **Executed functional, exploratory,** and regression testing cycles, managing bugs and use cases in Jira and TestLink within Agile teams.

EDUCATION, Certifications & Seminars:

- Legal Assistant / Procurator — Faculty of Law, UDELAR (1998)
- Certified Tester Foundation Level (CTFL) — ISTQB® (2015)
- Certified Mentor Trainer & Leader Certificate (PMBOK) — Globant (2024)
